CortexMobile® is an iPhone 5/5s software application developed by Code to demonstrate the CR4405 capabilities. This software app can serve as a reference for programmers who use Code's SDK to build other apps which can be downloaded to the iPhone from the Apple App Store . The sled must be in iPhone App Communication Mode to run Code SDK-based applications (refer to the CR4405 Configuration Guide from www.codecorp.com/files.php). After downloading, click on the app icon to open CortexMobile.

Apple and iPhone are trademarks of Apple Inc., registered in the U.S. and other countries.
